

Alex Alcott

Tomball, TX | (346)-818-4277 | alex.alcott.meen@gmail.com

EDUCATION

Texas A&M University,
Bachelor of Mechanical Engineering
GPA: 3.40/4.0

College Station, Texas
Projected Graduation: May 2028

TECHNICAL EXPERIENCE

Freshman Leaders in New Technology

College Station, TX

Vehicle Design Team Member

2024-2025

- Collaborated in the design and development of a modular vehicle, created to efficiently transport relief supplies and aid in challenging environments and crisis situations
- Integrated CAD modeling, materials selection, systems design, and fabrication to create a finished product

Engineering Capstone

Tomball, TX

Team Lead

August 2023 – May 2024

- Implemented electronic, 3D modeling, and design skills to create an off grid autonomous system in order to reduce crashes at uncontrolled intersections
- Successfully created a working prototype that operates in various real-world scenarios, demonstrating practical application and functionality

Los Alamos Aggies Invent

College Station, TX

1st Place

February 2025

- Worked with a team to develop an integrated security system to enhance security for microreactors when deployed in remote environments that ensures real-time tracking of authorized personnel and instantaneous detection of unauthorized activity, using RFID, AI-driven object detection, and thermal imaging to provide a scalable solution
- Pitched solution to high ranking Los Alamos officials, earning 1st place and initiating steps for IP protection

LEADERSHIP

Freshman Leaders in New Technology

College Station, TX

Professional Outreach Staff

October 2024 – May 2026

- Helping lead efforts to coordinate with industry professionals to organize and plan events in order to create relationships and enhance networking opportunities for other members

SKILLS, ACTIVITIES & INTERESTS

Technical Skills: Proficient in both Java and Python, knowledgeable in soldering, welding, circuit design, and GD&T

Certifications and Training: Certified in SolidWorks Autodesk Inventor, Revit, and AutoCad, as well as SolidWorks

Honors: Eagle Scout, High School- Summa Cum Laude

EXPERIENCE

WertzWerkz

Bryan, TX

Mechanical CAD Designer

January 2026 - Present

- Designed and validated mechanical components for one of the nation's leading carnival game manufacturers, creating products used at large-scale events across the U.S.
- Collaborated with fabrication and assembly teams to optimize designs for cost, reliability, and ease of manufacturing
- Developed production-ready CAD models and drawings incorporating manufacturing constraints, durability, and safety requirements.
- Iterated designs through physical testing and field feedback, improving product performance and longevity.

Resident Advisor

College Station, TX

Texas A&M Department of Residence Life

August 2026 – Present

- Co-designed engagement initiatives and built rapport across a resident floor of 116 students to establish a supportive, inclusive living-learning environment during transition periods
- Applying university policy enforcement, conflict mediation, and emergency response procedures during weekly shifts.

Philmont Scout Ranch

Cimmaron, NM

Tooth of Time Traders

May 2025 – August 2025

- Gained experience in fast-paced environments requiring adaptability, accuracy, and consistent reliability
- Adapted to diverse responsibilities across sales, food prep, and inventory management, maintaining reliability under pressure
- Supported customer service, sales, and inventory operations in a store generating \$2M in monthly revenue
